

JOHNNY EXPRESS™ STORAGE TANK

PLEASE READ THESE INSTRUCTIONS CAREFULLY!

EXAMINE CONTENTS CAREFULLY FOR ALL PARTS BEFORE ASSEMBLY

ASSEMBLY

1 Hatch Covers

Hold the hatch covers vertically, as shown, and push hinge down over projections next to the hatches.

2 Valve Assembly

Slip valve assembly over center threaded stud on tank and screw on one large plastic nut. Finger tighten only.

3 Legs

Place legs over threaded studs at ends of tank and screw on small plastic nuts. Finger tighten only.

4 Labels

Carefully peel off labels and place in locations shown.

OPERATION

This unit actually holds water. Be sure valve is in closed position before filling with water. Turn valve wheel to turn on and off (left to right to turn on - right to left to turn off). Swing open center hatch, pour in approximately four quarts of water and close hatch. This storage tank is designed to work directly with the JOHNNY EXPRESS™ Liquid Tanker.

<u>PART NO.</u>	<u>PART NAME</u>	<u>QUANTITY</u>
